17. [REDACTED] LIAISON I took a call from Dick

Perle, on the staff of the Permanent Subcommittee on Investigations, Senate Government Operations Committee, who stated that Senator Henry M. Jackson's (D., Wash.) office had received a call from a leader in the Lebanese-American community in New York, who had just talked to Franjieh of Lebanon by telephone. Franjieh stated that the situation was extremely grave and had deteriorated over the last 24 hours to the point where it was now considered genocidal.

Perle said the Senator needed an update immediately on activities over the last 48 hours and the prognosis for the next few days. I called [REDACTED] who mentioned the problem to Mr. Cary and it was understood that Mr. Cary and [REDACTED] OCI, who were on the Hill at the time, would see Perle shortly after noon.

raised with Mr. Cary, after checking with [REDACTED] I called Ralph Preston, Defense Subcommittee staff, House Appropriations Committee, and told him that there was a program called Multi-spectral Optical Sensing Program run by DEA under the auspices of Ambassador Sheldon Vance, State Department, with authority from the Cabinet Committee for International Narcotics Control, and that it was a joint operation with Mexico to attempt to locate poppy fields. I told him that we had been asked for some technical assistance but that we had no money in our budget for the program.
